

Become a team leader in political education!!

Team leader training course □ Lead workshops for 16- to 27-year-olds

For 25 years the Friedenskreis Halle e.V. has dedicated itself to topics such as active non-violence, conflict management, lived democracy, transcultural diversity and global justice. With our “**Weltentausch**” project (“**exchange of worlds**”), we address everyday racism and social inequality based on racism, primarily in the field of asylum policy. Our workshops aim to encourage social sensitization and promote an open society.

<p>Aims of the training course:</p> <p>We want to enable youngsters (ages 16-27) to work as a team leader on a fee basis. They will learn methods of political education and address their role and attitude as a team leader. Additionally, there will be an introduction to the foundations of racism and discrimination. A core component of the training course will be the exchange of ideas among the participants and a deeper understanding of the course content by way of practical tasks. We want to create joint learning spaces.</p>	<p>Structure:</p> <p>The team leader training course is composed of core modules and several, freely selectable practical modules. All modules comprise 2-3-day workshops. Module 1 focusses on the fundamental principles of political education. Module 2 examines the topic of discrimination. Participants are then able to select practical modules from a number of individual existing workshop concepts, previously developed by our association. After a period spent observing classes, these modules can then be taught - even as part of a team - on a fee basis in the Halle area.</p>
